HEALTH ACTIVITIES AND UPDATES
FEBRUARY 2010

Dr. William Bazeyo
Dean/Principal Investigator
MUSPH/HEALTH

7th Deans’ Meeting held at White Sands, Mombasa
Leadership Initiative for Public Health in East Africa was launched in 2005

It is a long-term partnership between schools of public health in EA in collaboration with institutions of higher learning in USA

Supported by funds from USAID entrusted to the Higher Education for Development
LIPHEA Partners

East African Public Health Schools:
- Makerere University, School of Public Health
- MUHAS School of Public Health and Social Sciences

US Consortium
- Johns Hopkins Bloomberg School of Public Health institution
- Tulane University
- George Washington University
Background

- The HEALTH Alliance - born from LIPHEA

- Goal of HEALTH – To create an academic network to address leadership gaps in public health in the region

- The Alliance involves 7 schools of public health in the Eastern Africa Region and works in collaboration with US based institutions
Aims of the Initiative

i. To establish long term partnership between academic institutions in USA and EA

ii. To provide technical assistance to EA schools of public health to review curricula and develop in-service short courses for improving leadership skills

iii. To help reduce the “brain drain” by improving professional development opportunities for public health leaders.
Objectives of the HEALTH Alliance

a) To strengthen the capacity of partner institutions through academic collaboration

b) To address public health problems in the region and provide solutions

c) To improve infrastructure for teaching including use of ICT
Structure of the Alliance

ALLIANCE

Dean’s Board
The Alliance Members

- Makerere University School of Public Health
- MUHAS School of Public Health and Social Sciences
- Jimma University School of Public Health
- Moi University School of Public Health
- National University of Rwanda School of Public Health
- Kinshasa University School of Public Health
HEALTH Activities 2009–2010

- Training of District Teams in Disaster Planning and Management (2 per country; 3 Uganda and Tanzania) (Numbers) (Insert picture)

- Situational analyses for epi–zoonotic diseases in the six HEALTH partner countries, April 2009 (2 manuscripts)

- Participated in the regional Humanitarian Pandemic Preparedness Conference (April 2009, in Addis Ababa)

- Initiated Partnership with Local implementers in Disaster preparedness and management

- HEALTH fundraising meeting in Belggio, Italy, June 2009

- Response to RFI on Epi–Zoonotics with US Partners (RESPOND), June 2009
Curriculum for Epi–zoonotic Diseases developed and pre–tested in Dar–es–salaam and Kampala (Schools of Public Health and Schools of Veterinary Medicine)

Ethnographic study on social mobile computing by IBM and HEALTH, July to August 2009

Transfer of server from Tulane to HEALTH secretariat at Makerere University School of Public Health and training of 4 IT personnel from Nairobi, Makerere and Dar es Salaam Universities, August 2009

Sixth Deans and Directors’ meeting (DAR), August 2009

Disaster forum and international scientific conference for 225 participants, September 2009

Developed “Enhanced Teaching and Learning: A Public Health Perspective” course for faculty of HEALTH members (Online course)

Notable Successes

1. HEALTH has approved the HEALTH Alliance strategic plan and now is ready for implementation

2. Networking with other organizations such as the Red Cross, AFENET, CDC, IBM, and others working on the human pandemic and zoonoses

3. The concept of social mobile computing/cloud computing is better understood now (IBM to give update)

4. Curriculum on zoonotics has been developed and is readily available for use alongside the completed district plans
**Notable successes** (Continued)

5. Schools in the Alliance have embarked on curriculum review – MPH following the evaluation

6. New programs have been initiated in schools – MPHN, MHSR, MHPM, and short courses like strategic Leadership, PHCE, HSM and Quality Assurance and leadership

7. Server and website hosting capacity successfully transferred from Tulane

8. 1st African Disaster forum held in September 2009 in Kampala and attracted 450 participants and many were from the Alliance partner countries

9. Online course has been developed to help Alliance members improve their faculty members’ teaching skills.
1. Mobilize resources to support the HEALTH alliance to address its strategic objectives

2. Build collaboration with partners in the area of Epi-zoonotic And zoonotic diseases – Schools of Veterinary

3. Arrange more Disaster Management and response training in partner countries

4. Develop IT innovations for health, together with private and public partnership

5. Share HEALTH’s disaster response planning experiences and involve new partners like Southern Sudan
Future Plans (Continued)

6. Encourage Publication of all Alliance/HEMP activities

7. Develop interactive training manuals

8. Implement the recently adopted HEALTH Alliance Higher Education strategic plan 2009–2014

9. Hold tracer studies for leadership and HEMP
Emerging Issues/Challenges

1. Strengthening the partnership and suggestions to include new members from other sectors like the private sector

2. Resource mobilisation and grant writing

4. Increasing visibility of the NETWORK and collaboration beyond the region

5. Bridging HEALTH gap in ICT capacity
The Eggs

“And that’s what happened to the eggs
