- Respect
- Excellence
- Accountability
- Commitment
- Team Work
- Integrity

UGAWOM Team addressing students  
at Bishop Danstan Kalangala

## UGANDA WOMEN MATHEMATICIANS

*"Mathematics, Count On It"*

### VISION

All girls for Mathematics.

### MISSION

To motivate girls and women into  
mathematics.

## BACKGROUND

Uganda Women Mathematicians (**UGAWOM**) comprises of women educators who advocate for good teaching and learning of mathematics. They raise awareness to teachers, students, parents and community about gender in a mathematics learning environment.

### Activities

Organise camps in lower primary groups, marathons, secondary school visits, career days, write books, magazines, newsletters, and carry out industry-based research.

In addition, we train girls on menstrual hygiene, domestic violence and the role gender construction plays in their science and mathematics achievement.

## OVERALL OBJECTIVE.

To empower females to appreciate the use of Mathematics and its application in real life situations.

## SPECIFIC OBJECTIVES

- To develop a positive attitude towards Mathematics.
- To nurture and mentor females into Mathematics related fields.
- To support academically gifted but financially constrained girls in Mathematics.
- To conduct collaborative inter disciplinary research.
