KAGAARI James Rubazonzya

Kagaari designed model that explains how quality services, service delivery and cost reduction should be attained in public universities in Uganda. The study established that university employees should be responsive to changes in the environment while using ICT to mobilise and utilise available resources. This research was supervised by Professor J.C. Munene and Dr. Joseph Mpeera Ntayi. The study was funded by Kyambogo University.

NANSUBUGA Florence (Ms)

Nansubuga investigated how to improve the performance of Local government managers. She trained some manager following competence based framework. She compared managers that were trained with those that were not trained. Those former performed better than latter on number of indicators. She recommended continuous reflection on one's competences, one's job related actions and how these can influence and are influenced by the working environment. The academic supervisors were Prof. John Munene and Dr. Joseph Ntayi, and financial support was provided by Makerere University Council through staff development.
