The Faculty of Technology, in collaboration with the International Network for Bamboo and Rattan, with funding from IDRC of Canada, will launch Bamboo technology demonstration building at Makerere University on Thursday.

The building was completed recently using traditional bamboo technology according to the Dean Faculty of Technology, Prof. Barnabas Nawangwe.

The building is located next to Makerere University Guest House. The professor says the building will be used as a conference hall with capacity to accommodate over 200 people.

The building was constructed by local builders working on supervision by experts from Colombia and Nepal. The building cost over 150 million shillings. The materials were got from Kisoro.

The Vice Chancellor of Makerere University, Prof. Venansius Baryamureeba will preside over the launch on 25th November 2010 at Makerere University Guest House Gardens.
