KU plot to silence Ndejje

IN SUMMARY

History favours Kampala University going into this match both sides having met four times before. KIU have won three of those and lost one.

New entrants Kampala University (KU) will be looking to sustain their dream start to the University Football League when they visit Ndejje University today.

KU, who are fresh from humbling last year’s champions Makerere University 3-0, are looking to surmount a seemingly smaller obstacle in Ndejje as they aim to extend their lead in the league.

History favours Kampala University going into this match both sides having met four times before. KIU have won three of those and lost one.

Kampala University, who are the 2013 East African University Games Champions, are currently third in the log (six points) and their prolific skipper Muzamiru Mutyaba is buoyant their current form will continue.

“It won’t be an easy game since Ndejje is playing in the Big League but we shall use our experience,” explained Muzamiru.
