Sera Nshuti, aka Elah, is a singer and a student of procurement at [Makerere University](#). She told VICKY WANDAWA why she dates numerous guys

Do you have a boyfriend?
No, but I date guys just for fun.

How close do you get to sleeping with them, since you only do it for fun?
Second base, which is just making out, kissing, not far enough to get me pregnant.

What does that make you?
Nothing. It is just a phase that I am going through — looking for the right person and besides, I am young. At 20, there is no reason why I should be tied to one person.

What kind of man are you looking for?
He should be Born-again, financially strong and romantic enough to call me up during the day, just to find out how I am doing. I also like shy men.

You want a Born-again man. Are you Born- again?
Yes.

But you date for fun. Bornagains are not known to do that.
There are Born-agains who do worse things than that, especially regarding dishonesty. So, dating for fun is nothing. Besides, everyone has a secret. It's just that I am open and do not mind sharing mine.

And what's with the shy guys?
I do not like guys who talk a lot, so, a shy guy would be just perfect.

Have you been in a relationship before?
Yes, but we broke up.

Why?
He was older than me, it did not seem to work out and there was really no point in trying to keep it afloat.

Cross-generational sex?
No, he was not much older than me. I was in secondary school and he was at university.

Do you really think he loved you considering that he was surrounded by cute campus girls?

In the first month, yes. We dated for six months, before issues to do with mistrust arose. I was not so sure what he was up to with the university girls. We broke up.

I am suprised that some one at 20yrs still calls herself young and therefore there is no reason why she should be tied to one person!t !!!!
What a SHAME????????? Stop abusing born-again.

wise woman

what a shame to claim that you are born Again. Lord have mercy on her soul, that she may find the true God, who cannot be blasphemed
