In a struggle to promote the image of Makerere University, the students' guild has launched an academic outreach campaign where it's to display the innovations and skills in the university to students in different regions of the country.

The University students' guild President, Ivan Katta says of recent Makerere has been known of university for strikes all the time and this gives a perspective of no good fruits that can be gotten from the students of the university.

In the outreach that starts on 3<sup>rd</sup> July, Katta says they are to use innovations like the KIIRA EV car, bomb detectors among other things that were invented by students to inspire young people to join the campus

to gain skills as well as guide them on courses to pursue.
