Makerere University Vice Chancellor's Office

Through this year's Production, "**HAKUNA MATATA**" "No worries", PAF and NUCD tells of their hard work for better arts education through choreographies and sounds of unity. We do not give up; we scrub and wash together when there is a need. Two cultures meet each other for a common goal, a better place for the performing arts in Makerere University.

We work to overcome limitations; Africa's art will continue to grow even at the international space, where Norway is only a small part in the bigger context.

**Hakuna Matata's happy ending is our prediction of the future of the arts in Uganda, the Pearl of Africa!**
