

Making workplaces ready for Coronavirus Disease (COVID-19)

What

Makerere University School of Public Health in collaboration with the Ministry of Health (MoH) has designed and organized a 1-Hour Training/Sensitization on preparing the workplace for Coronavirus Disease (COVID-19).

Objective

To train/sensitize workplaces about what they exactly need to do to prevent COVID-19 from affecting their employees, clients, suppliers and their business.

Content

The training has been modelled on the WHO guidelines on getting workplaces ready for COVID-19 and the Uganda Ministry of Health Guidelines and Recommendations for COVID-19 prevention/preparedness. The training can be adapted to the specific needs of every organization/institution

Target audience

We are targeting all organizations/institutions.
