

Industrial Training Opportunity

For further details on how to apply, visit the application portal on <https://celestini.ranlab.org/>.

The deadline for submitting applications is **31st March 2022**.

eduroam! Expanding Remote Access to Information

www.renu.ac.ug

Are you an undergraduate student joining your final year of study?

The Research and Education Network for Uganda (RENU), in partnership with the Marconi Society, the Network Startup Resource Center (NSRC), International Centre for Theoretical Physics (ICTP) and ResilientAfrica Network (RAN) under the Celestini: Uganda Program announces an Industrial Training and Mentorship program in eduroam for undergraduate students entering their final year of university.

The program provides the opportunity to students to gain skills in federation and identity management, and database administration with mentorship from global leaders in Information Communications Technology (ICT).
